

PRESS RELEASE

NHIndustries to Unveil Latest NH90 Helicopter Innovations at Paris Air Show 2025

Le Bourget, France – Paris 13th June 2025

NHIndustries (NHI) is pleased to announce its participation in the **55th edition of the Paris Air Show**, taking place at Le Bourget from June 16th to 22nd, 2025. NHI will showcase the NH90 helicopter – Europe's largest military helicopter program – with a strong presence in Static Area C3.

What to expect at the NHI Pavilion

During the international aerospace event, NHI will welcome industry professionals, partners and NH90 operators to discover the latest innovations and mission capabilities of the NH90 platform.

On display:

- **The latest variant of the NH90 NFH** (NATO Frigate Helicopter) soon to be integrated into the **German Navy's** fleet under the name of Multi Role Frigate Helicopter (MRFH), dedicated to Anti-Submarine Warfare (ASW) and Anti-Surface Warfare (ASuW) missions as part of the **Sea Tiger program**.

The MRFH has been specifically designed to match the needs of the German Navy for a state-of-the-art anti-submarine warfare helicopter. Novelties include a new Electro-Optical system and improved Electronic Support Measures.

- **An NH90 TTH** (Tactical Transport Helicopter) from the **French Army**, which will perform daily flight demonstrations.

The NHIndustries pavilion will also highlight alongside the NH90 MRFH key weapon systems and configurations for ASuW and ASW missions:

- **MARTE ER Missile mock-up by MBDA**
- **Laser Guided rockets by Thales**
- **The MU90 torpedo by Eurotorp**

Media Events at the NHIndustries booth:

- **NH90 MRFH Presentation:** on Tuesday, June 17th, 2025, at 11:00 AM.

PRESS RELEASE

- **Daily Supplier Presentations:** NHIndustries believes in supply chain cooperation and resiliency and will host **each afternoon at 16:00**, in-depth supplier presentations offering insights into the NH90's ASW/ASuW mission capabilities, technology, and the expertise driving the MRFH program.

About NHIndustries

NHIndustries is a joint venture between Airbus Helicopters, Leonardo Helicopters, and GKN Fokker. With over 500 NH90 helicopters delivered globally, the NH90 stands as a state-of-the-art, versatile multi-role military platform. Built with a fully composite airframe, an expansive cabin, and an advanced quadruplex fly-by-wire flight control system, the NH90 ensures enhanced mission success and operational efficiency in diverse environments.

NH90 - Driving European Defence Forward

The NH90 helicopter is a symbol of European cooperation and has contributed to building a resilient and independent defense industry across Europe. Already in service for more than 20 years with nine NATO European countries, its combat-proven capabilities and advanced technology make it the most capable military helicopter in its class for naval and land missions.
